Certified in Java at Pumo
Technovation

PROFILE SUMMARY

Skilled developer with expertise in Java, web development, and database management. Experienced as a Web App Developer with a focus on creating efficient, user-friendly applications and delivering impactful solutions.

PROJECTS

Project - 1

Blood Connect (React JS)

- Developed a blood donor web application using React, allowing users to register, log in, and search for donors by blood group and location.
- Implemented client-side authentication and filtering features to help users easily find nearby donors.
- Designed a responsive and intuitive user interface to improve accessibility and user experience.

Project - 2

User Authentication Web Application Java (Servlets/JSP)

- Developed a dynamic web application using Java (Servlets/JSP) for server-side logic and HTML, CSS, JavaScript for the client-side interface.
- Utilized SQL database to securely store and retrieve user credentials and other relevant data.
- Ensured data verification during login by comparing input credentials with database records, enabling secure and successful authentication.

SOFT SKILLS

1. **Communication:** Effective communication to facilitate collaboration and understanding.
2. **Teamwork:** Strong team player with a history of successful group contributions.
3. **Adaptability:** Quick to adjust and thrive in changing environments.
4. **Problem-Solving:** Proactive in identifying and resolving complex issues.
